- Business projects: Construction of traffic works, water supply, drainage, electricity; post office, irrigation.,
- Construction materials business: Production and trading of hot asphalt concrete and asphalt emulsion...

3. Ordinary course of business: 12 months

4. Characteristics of the Company's activities in the year affecting financial statement

The company primarily executes contracts for supplying public service products and constructing projects using state budget funds, so the final settlement process is prolonged. When there are changes in policies, it significantly affects the settlement value, thereby altering the company's business results. In 2025, following the State's administrative restructuring, Ho Chi Minh City was merged with Binh Duong and Ba Ria – Vung Tau. This restructuring resulted in an increase in revenue of more than VND 897 billion during the year, representing a growth rate of 159% compared to 2024. This is an encouraging sign for the Company's production and business activities, while also placing new responsibilities on the Company's Board of Management. □

5. Company's structure:

The Company has 01 subsidiary, 14 affiliated enterprises and corporate office that manages the overall operations of the entire Company.

6. Number of employees at the company : 525 persons

II. ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

1. Accounting period

The first Fiscal Year starts on 5/5/2016 and ends on 31/12/2016.

Fiscal year of Company is from 01 January to 31 December.

2. Accounting currency

The financial statements are prepared and presented in Vietnam Dong (VND).

III. ACCOUNTING STANDARDS AND ACCOUNTING SYSTEM

1. Accounting system

The Company applies Enterprise Accounting System issued under Circular no.200/2014/TT-BTC dated December 22, 2014 by Ministry of Finance as well as the circulars of the Ministry of Finance giving guidance.

2. Declaration of adherence to Accounting Standards and Accounting system

The Company applies Vietnamese Accounting Standards and supplement documents issued by the State. Financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current accounting system.

IV. ACCOUNTING POLICIES

1. Cash and cash equivalents

Cash and cash equivalents include cash, bank deposits, funds in transit, and short-term investments with a recovery or maturity period not exceeding three months from the date of purchase, which can be easily converted into a specified amount of cash with minimal risk of conversion.

2. Accounting rules for financial investments

Are investments outside the enterprise for the purpose of rational use of capital to improve the operational efficiency of the enterprise such as: investment in capital contribution to subsidiaries, joint ventures, associates, securities investments and other financial investments ...

Classification of investments when preparing financial statements according to the following principles:

- Investments with a residual recovery term of not more than 12 months or in 1 production and business cycle are classified as short-term.
- Investments with a residual recovery term of 12 months or more or more than 1 production and business cycle are classified as long-term.

a. Investment held to maturity date

This investment does not reflect the types of bonds and debt instruments held for the purpose of buying and selling for a profit. Investments held up to the maturity date include term bank deposits (remaining recovery period of 3 months or more), bills, promissory notes, bonds, issuer preferred shares that are required to be repurchased at a certain time in the future, and loans held up to maturity for the purpose of collecting interest periods and investments held to other maturity.

Provision for discounts on investments held up to maturity date: investments held until the maturity date if they have not been made a reserve in accordance with the provisions of law, the Company must assess the recoverability. Where there is solid evidence that part or all of the investment may be irrevocable, the amount of losses must be recognized in the financial costs during the period. The appropriation or refund of this provision shall be made at the time of preparation of the Financial Statements. In case the number of losses cannot be reliably determined, the investment shall not be recorded and the recoverability of the investment shall be explained on the Explanation of the Financial Statements.

b. Investments in subsidiaries, joint ventures, affiliations, and co-controlled businesses

Investments in subsidiaries and associates are accounted for using the cost method. Net profits distributed from subsidiaries and associates arising after the investment date are recognized as financial income during the period. Other distributions (excluding net profits) are considered a recovery of investment and are recorded as a reduction in the original investment cost.

Provision for loss of investment in another entity: losses incurred by subsidiaries, joint ventures, associates resulting in the investor potentially losing capital or provisions due to impairment of the value of these investments. The appropriation or refund of this provision is made at the time of drawing up the Financial Statements for each investment and is recognized in the financial expenses for the period.

3. Accounting rules for receivables

Receivables are monitored in detail according to the receivable term, debtor, currency type, and other factors based on the company's management needs.

The classification of receivables must be managed as bellows:

- Trade receivables: any receivable having from trading activities between the company and its clients: selling goods, providing service, disposal of assets, exported receivable of consigner through the consignee;
- Intra-company receivables: receivables between the company with its dependent branches;
- Other receivables: are non trade receivables and do not related to trading activities.

For the preparation of financial statements, the receivables must be classified as bellows:

- Having maturity less than 12 months or 01 normal production period are recorded as short - term.
- Having maturity over than 12 months or 01 normal production period are recorded as long - term.

Provision for doubtful debts: Doubtful receivables are provisioned when preparing the financial statements. The recognition or reversal of this provision is carried out at the time of financial statement preparation and is recorded as administrative expenses during the period. For long-term doubtful receivables that the company has exhausted all possible collection measures but remains uncollectible and the debtor is determined to be genuinely insolvent, the company may proceed with procedures to sell the debt to a debt trading company or write off the doubtful receivables from the accounting records (in compliance with legal regulations and the company's charter).

In addition, the company also has doubtful receivables related to the approval and settlement of SPDVCI construction projects that were executed before the official transition into a joint-stock company, which are awaiting guidance from the competent authorities for resolution.

4. Rules for recording inventories

Inventories are stated at original cost. Where the net realizable value is lower than cost, inventories should be measured at the net realizable value. The cost of inventories should comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value represents the estimated selling price minus the estimated selling expenses.

Method of calculating inventory value : first in first out

Methods for recording inventories : regular declaration method

Provision for inventory is made for the estimated loss in value due to the decline in the price of materials, finished goods, and inventory owned by the company (such as depreciation in quality, obsolescence, etc.) based on reasonable evidence of value reduction at the end of the financial year. Increases or decreases in this provision are recorded as the cost of goods sold in the income statement.

5. Rules for recording depreciation of fixed assets

Fixed assets

Fixed assets are stated at the historical cost. During the using time, fixed assets are recorded at cost, accumulated depreciation and net book value.

Cost of fixed assets comprises its purchase price and any directly attributable costs of bringing the asset into use. The cost of procurement, upgrade and renewal of fixed assets are converted into fixed assets, the cost of maintenance and repairs is recorded as expenses in the current year.

When the liquidation of assets, the cost and accumulated depreciation of assets are written off in the financial statements and any losses arising from the disposal are recorded in the income statement.

Fixed assets that have been fully depreciated are still in use because the company has effectively maintained and serviced its machinery and equipment.

Depreciation is provided on a straight-line basis. Depreciation period is estimated as follow:

- Buildings and structures	05 - 50 years
- Machinery, equipment	08 - 15 years
- Transportation equipment	06 - 10 years
- Management equipment	03 - 06 years
- Other tangible assets	04 years
- Other Intangible fixed assets	03 - 06 years

6. Construction in progress

Construction in progress costs reflect expenses directly related to assets under construction and machinery and equipment being installed for production, leasing, and management purposes, as well as costs associated with ongoing fixed asset repairs. These assets are recorded at cost and are not subject to depreciation.

7. Prepaid expenses

The calculation and allocation to expense to each accounting period based on the nature, level of each prepaid expense to determine the allocation method properly and consistently.

Prepaid expenses are monitored according to each term of expenses which incurred and distributed into objects bear the cost of each accounting period and the remain is not amortized to expense.

Prepaid expenses are classified as follows:

- Prepaid expense related to purchase or service less than 12 months or 01 normal production period, from incurred date, are recorded as short - term.
- Prepaid expense related to purchase or service over than 12 months or 01 normal production period, from incurred date, are recorded as long - term

8. Payables

Payables are tracked in detail for the remaining payment period of the payables, payables, type of currency payable and other factors required by the Company.

The classification of payables is based on the following principles:

- Payables to suppliers: Trade payables arising from purchases of goods, services, assets and liabilities when imported through a trustee;
- Intercompany payables: Payables between subordinate units and dependent subordinate units not having dependent legal entity status;
- Other payables: Non-commercial payables, not related to purchase, sale or supply of goods or services.

9. Accrued expenses

Payables for goods and services received from suppliers or provided to customers during the period but not yet paid due to the absence of invoices or incomplete accounting documentation, as well as payables to employees, are recorded as production and business expenses during the period. This ensures that when actual expenses arise, they do not cause sudden fluctuations in production and business costs, adhering to the principle of matching revenue and expenses. The accrual of payables must be carefully calculated with reasonable and reliable evidence. When these expenses occur, if there is a discrepancy with the accrued amount, the accounting department will record an adjustment to increase or decrease expenses accordingly.

10. Recognizing Unearned Revenue

Unearned revenue includes advance payments received, such as: Amounts paid in advance by customers for one or multiple accounting periods for asset rentals; Interest received in advance from lending or purchasing debt instruments; The difference between the committed installment or deferred payment sale price and the immediate payment price; Revenue corresponding to goods and services or discounts to be granted to customers under a loyalty program.

The balance of unearned revenue in foreign currency at the end of the financial year will not be subject to foreign exchange revaluation at the time of financial statement preparation unless there is conclusive evidence that the company will have to refund the advance payment to the customer in foreign currency.

11. Owner's equity

a. Contributed capital, capital surplus, conversion options on convertible bonds, other capital

The owner's investment capital is recorded according to the actual capital contributed by the owner and is monitored in detail for each organization and individual participating in capital contribution.

The share capital contribution of shareholders is recorded at the actual price of issuing shares, but is reflected in two separate indicators:

- The owner's contributed capital is recognized at par value of the shares;
- The share capital surplus is recognized according to the larger or lesser difference between the actual price of the share issuance and the par value. In addition, a surplus of share capital is also recognized according to the larger or lesser difference between the actual price of the issue and the par value of the shares when reissuing treasury shares.

In addition, share capital surplus is also recognized based on the positive or negative difference between the actual issuance price and the par value of shares when treasury shares are reissued.

b. Undistributed earnings

Undistributed earnings is the profit of business operations after deduction (-) regulated items due to applying a change in accounting retrospectively or to make a retrospective restatement to correct materiality in previous year.

The distribution of the company's business operating profits must comply with the current financial policies.

When distributing profits, it is necessary to consider non-monetary items located in undistributed after-tax profits that may affect cash flow and the ability to pay dividends and profits of the company.

12. Revenues

Revenue is recognized when the Company is certain of receiving identifiable economic benefits. Revenue is determined at the fair value of the amounts received or receivable after deducting trade discounts, sales reductions, and returned goods. The following specific recognition conditions must also be met when recognizing revenue:

Construction contracts

Construction contract revenue is recognized in one of the following two cases:

- The construction contract stipulates that the contractor is paid according to the planned schedule: when the results of the contract performance are reliably estimated, the revenue is recognized in proportion to the part of the work completed by the contractor himself at the date of preparation of the financial statements;
- The construction contract stipulates that the contractor is paid according to the value of the performance volume: when the results of the contract performance are reliably estimated and confirmed by the customer, the revenue is recognized in proportion to the completed work confirmed by the customer.

Adjustments in contract execution, bonuses, and other payments are only recognized as revenue when they have been agreed upon with the customer.

When the results of the performance of the contract cannot be reliably estimated, the recorded revenue is equivalent to the costs incurred for which the reimbursement is relatively certain.

Revenue from sale of goods

Revenue from sale of goods should be recognized when all the following conditions have been satisfied:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer;
- The Company retains neither continuing managerial involvement as a neither owner nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- The economic benefits associated with the transaction of goods sold have flown or will flow to the Company;
- The costs incurred or to be incurred in respect of the transaction of goods sold can be measured reliably.

Revenue from rendering of services

Revenue from rendering of services should be recognized when all the following conditions have been satisfied:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- It is probable that the economic benefits associated with the transaction will flow to the Company;

- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Financial income

Financial income includes interest, gain on exchange rate difference, dividends... and other income of financial activities. For interest earned from loans, deferred payment, instalment payment: income is recognized when earned and original loans, principal receivables are not classified as overdue that need provision. Dividend is recognized when the right to receive dividend is established.

Other incomes

Other income includes income other than the company's production and business activities: sale, liquidation of fix assets; fines imposed by the client for breach of contract; third-party compensation to compensate for lost property; revenues from bad debts that have been processed for write-off; liabilities that do not identify the owner; income from gifts, gifts in money, in kind ...

13. Construction revenue deductions

The adjustment to reduce construction revenue is made upon receiving the approval decision for the final settlement that decreases construction completion costs from the Investor and relevant Authorities.

14. Costs of goods sold

Cost of good sold includes cost of finished goods, trade goods, services, property, construction unit sold in the production period and expense related to real estate activities...

Damaged or lost value is allowed to record to cost of goods sold after deduction of compensation (if any).

15. Financial expenses

Items recorded into financial expenses consist of: expense or loss related to financial investment; lending and borrowing expense; expense related to investment to joint venture, associates; loss from share transfer; provision of share decrease or investment; loss on trading foreign currency, ...

16. Selling and general administration expenses
